

Membrane nitrogen generator – MNG series

The Membrane nitrogen generator has been developed to meet specific requirements in terms of flow, purity and pressure for LC-MS applications. It can also be used for the evaporation of solvents in samples being analysed. The simple high efficiency membrane technology allows the separation of nitrogen from the other components of the compressed air inlet.

Specyfikacja

| RANGE | REFERENCE | OUTLET FLOW RATE | PURITY | OUTLET PRESSURE |
|---|-----------|------------------|--------|-----------------|
| MNG Series: high efficiency membrane technology | MNG8 | 8 l/min | > 99% | 7bar |
| | MNG40 | 40 l/min | > 99% | 7bar |
| | MNG80 | 80 l/min | > 99% | 7bar |
| | MNG120 | 120 l/min | > 99% | 7bar |
