

Paddles & Spin Shaft Accessories

QLA offers electropolished 316 Stainless Steel paddles, PTFE coated over 316 SS paddles, and proprietary fluoropolymer paddles (Patent Pending). The fluoropolymer paddles provide a seamless construction eliminating corrosion and contamination encountered with conventional three-piece assemblies. All styles comply with USP (711) and Original Equipment Manufacturer's dimensional specifications. All QLA paddles are precision manufactured to limit rotational wobble to levels below USP (711) specifications.
